## ACT QUICKLY.

Delay Has Been Dangerous in Pensacola.

Do the right thing at the right time. Act quickly in times of danger. Backache is kidney danger. Doan's Kidney Pills act quickly. Cure all distressing, dangerous kidney ills.

Plenty of evidence to prove this. Mrs. M. A. Stephens, 311 E. Government St., Pensacola, Fla., says: "I suffered untold agony from kidney disease. There were terrible, bearing down pains through the kidney regions that made my life miserable. My back ached almost all the time and my kidneys were also disordered. Doctors could do nothing for me and I continued to suffer using one remedy after another to no avail. Finally Doan's Kidney Pills were brought to my attention and procured at box at the Crystal Pharmacy. I commenced their use. Improvement followed quickly and it was but a short time before all the pain had ceased. That happened several years ago, at which time I gave a statement for publication in favor of this remedy. I have had no need of a kidney remedy since as my cure proved permanent and I therefore hold the same opinion of Doan's Kidney Pills as when I gave my first statement. I never tire of praising them."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

## BARRANCAS TO GET FIRST OF MODERN BOATS

SIXTY-FOOT POWER BOAT NOW BUILDING AT PORT CLINTON, OHIO, IS TO BE SENT HERE FOR SERVICE AND WILL ASSIST THE QUARTERMASTER STEAMER.

The first of the four 60-foot modern power boats for service in the quartermaster's department of the United States navy, now in the course of construction at Port Clinton, Ohio, has been allotted to Fort Barrancas, and will be named in honor of Lieut. W. C. Neary, who died from wounds received during the Spanish war.

She will be used in connection with the coast artillery stations or posts, for general dispatch, the convenience of officers, transportation of troops, towing out of targets for practice shooting, and sundry other purposes in which the army is taken afloat. She will have a displacement, in service trim, of 25 tons.

The cabin is divided into three parts, compartments, which are designed as the pilot house and officers' quarters forward, the motor compartment, and the troops' cabin aft. The officers' quarters are to be finished in Honduras mahogany, and are upholstered and furnished, while the troops' cabin will be finished in ash, without any pretensions furnishing, as would be expected by the difference in rank.

Every fastening, and every piece of metal, must be of Muntz mixture, manganese bronze, or copper, and every piece of wood must be passed by the government inspector, detailed by the department to approve the work as it progresses, and in some respects it must almost be "grown to order."

are far more beautiful than artificial ones, and though it may be fashionable for pale people to use the rouge pot, the results are more attractive and lasting, if you will follow the more natural fashion and take Cardui.

Cardui enriches the blood, through the nervous system, the main connecting link of which, is in the womanly organs, like the exchange board of a telephone line.

No medicine can keep continuously before the public, like Cardui, for half a century of time, constantly increasing in popu-

larity and sales, as Cardui has done, unless, it does the work, as Cardui does.

"Cardui is all the doctor I want," writes Mrs. Amanda Frye, of Montoya, N. Mex. "It is the finest medicine for women that ever was. I cannot say too much for it. It helped me and also my mother, who had been suffering for three years from the change of life. I advised her to take Cardui and now she has taken one bottle and it has helped her and she feels like a different woman."
